How did your dog become part of your family? She came to us from USlabradoodles.com, a breeder that specializes in red labradoodles.

What makes her special? Ginger's docility and love for her human siblings. And, of course, her soft red hair.

What is the funniest thing he has ever done? Although humor is not her forte, she always makes us laugh when she attempts to dig a hole in her Dora The Explorer bed by incessantly rubbing her paws on the bed's fabric.
