How did your dog become a part of your family?

Eric got Cooper his senior year of college at Heidelberg University. While Eric was busy with his studies and baseball Cooper often came home and this was when we discovered All About Dogs. Cooper could burn off his puppy energy at daycare. He loved coming home and seeing his friends at All About Dogs.

Alex's fiancé, Grace, gifted Hunter to him at Christmas. Grace got Hunter from the same breeder as Grace's family dog. Hunter and Cooper quickly became best friends.

What is your dog's favorite activity?

Cooper loves to be outside and play with his tennis balls.

Hunter loves to play with anything that squeaks and wrestle.

Both boys love to go on walks together, play in the lake, eat sticks in the yard and chase each other around.

What is your dog's favorite food?

Cooper- Chicken

Hunter- Anything! He hasn't been known to turn anything down.

Both boys love cheese, peanut butter, ice cubes, puppy ice cream and Bil Jac treats.

What makes your dog special?

Both Cooper and Hunter make our family complete. They brighten our day and make us stop and take time to enjoy the simple things in life like a game of fetch.

What is the funniest thing he/she has ever done?

Cooper loves to keep track of who is home and not home by carrying shoes around. We think he takes attendance this way. He also loves to carry his blanket around the house.

Hunter will tilt his head when you talk to him. He also loves to howl in response. He loved to play with the garden hose and "help" water in the summer.
