

Buddy R.

Owner's Name: Roth family

Name & Breed: Buddy, when we adopted him they said he was a terrier mix, but it has been suggested he is a Patterdale Terrier.

Birthday: As the vet assumes it was around March, our son decided that he will have the same birthday as him, March 16th.

How did your dog become a part of your family? We adopted him from Geauga Humane Society Rescue Village.

Favorite Activity: Attending daycare weekly at All About Dogs! Tug of war with his toys, usually right after dinner time. Chasing the squirrels and chipmunks on our large property. Burrowing under blankets for snuggle time.

Favorite Food: Do treats count?

What makes him special? Buddy was very shy upon meeting him. He really opened up in personality as he got comfortable in his new home. We originally thought he “hated” people, but learned that he just used his voice to announce that he wants their attention. He had a fierce bark, but really just wants to be the center of attention.

What is the funniest thing he has ever done? He once caught a squirrel (not the funny part, poor thing). When I walked up to the backdoor after taking my son to the bus, he was sitting all proud with the squirrel presented just in front of him facing me. My instant reaction was “Oh Buddy” with a sad tone. He immediately shrunk down, looked up with the puppy eyes as if to say “I’m sorry, I thought it would make you proud.” It was cute, sweet, funny, and sad all at one time. He continues to chase today, but has not brought me one since.
